

Mission

To provide leadership and support in areas of common interest related to ports, and to promote achievement of their trade facilitation objectives.

Objectives

- Promote the common interests & views of Australia's ports
- Provide advice to, & seek to influence, governments in all matters that affect ports & marine regulations
- Promote public awareness, understanding & support for ports' contribution to the country
- Provide a forum for the development & exchange of views on the operation & management of ports
- Address emerging issues & provide services to assist ports
